

Полная информация по Сертификации косметической продукции в Европе

<http://ce-certification.tiwatiwa.com/certificate/cosmetics.html>

## Laboratory tests

### 2.1. Physical and chemical parameters

Test	Price in euro
pH	3,-
Dry matter	8,-
Determination of acid number	6,-
Dose volume	8,-
Package leaking	56,-
Humidity	8,-
Viscosity	20,-
Sensorial parameters (appearance, color, odour, consistency)	12,-
Manipulation with the sample	3,-

### 2.2. Microbial safety

Test	Price in euro
<b>2.2.1 Microbiological contamination</b>	
Proof of specific and non-specific microorganisms, determination the number of microorganisms (presence of <i>Pseudomonas aeruginosa</i> , <i>Escherichia coli</i> , <i>Staphylococcus aureus</i> , <i>Candida albicans</i> , presence of non-specific microorganisms, total microorganisms count)	112,-
Exact determination of microorganisms	12,-
Determination of number of yeasts	6,-
Determination of number of molds	6,-
Manipulation with the sample	3,-
<b>2.2.2 Evaluation of the antimicrobial protection of a cosmetic product</b>	
Preservation efficacy test	240,-

### 2.3. Biological tests (cytotoxicity, skin irritation)

Test	Price in euro
Cytotoxicity	160,-
Skin irritation (Testing on human volunteers)	200,-
Skin irritation (Test on human skin model, Epiderm-Mattek)	First product: 1140,- Another product within the same order: 820,-

### 2.4. Testing of stability

Test categories	Interval (months)	Temperature	Humidity	Items examined	Price in euro/interval	Total price in euro for the product
Testing after first opening of the package	0	declared by the manufacturer	declared by the manufacturer	product pH,	3,-	3,-
				sensorial attributes (appearance, color, odour, consistency),	12,-	12,-
				viscosity,	20,-	20,-
				microbial safety, etc.	112,-	112,-

Accelerated tests (extreme storage conditions for the selection of appropriate technology, composition, storage and transport conditions)	1, 3, 4 months	40 °C ± 2 °C	75 % ± 5 %	Impact of extreme temperature on:		
				increase of the product pH,	3,-	9,-
				change of sensorial attributes (appearance, color, odour, consistency),	12,-	36,-
				viscosity,	20,-	60,-
				microbial safety, etc.	32,-	96,-

Test categories	Interval (months)	Temperature	Humidity	Items examined	Price in euro/interval	Total price in euro for the product
Long-term tests (for evaluation of the product minimum durability)	1, 6, 12 months	real storage (for temperate and subtropical zone 25 °C or 30 °C)	60 % ± 5 %	<b>Changes during the storage:</b>		
				increase of the product pH,	3,-	9,-
				change of sensorial attributes (appearance, color, odour, consistency),	12,-	36,-
				viscosity,	20,-	60,-
				microbial safety, etc.	32,-	96,-

## 2.5. Test report compilation

Price of the test report depends on the extent of the testing and therefore also on the number of protocol pages.

Item	Language	Price in euro per one report page
Test report	Czech	4,- /page
	English	8,- /page

## 2.6. Performing the tests under GLP (Good Laboratory Practice)

Item	Price in euro
Confirmation of sample identity, maintenance, archiving	80,-

## Cosmetics – safety assessment

### 3.1. Safety assessment

Item	Price in euro
Cosmetic product safety report	194,-

### 3.2. Other costs

Procedure	Price in euro
Methodological assistance in the registration of cosmetic product to the European portal CPNP	20,-

## Additional information

### 4.1. Payment terms

Maturity of the advance invoice is fixed at 14 or 30 days from the date of issuing the invoice to the customer.
